

Early Years Foundation Stage Summer Term

Our Early Years curriculum is built around the children's interests. We build our learning around our observations of the children in their play and information given to us by parents about their children's interests at home, places they have been and their experiences. The children help us to plan for their own learning and no year is ever quite the same!

At the end of the Spring Term we all went on a trip to the Theatre Royal in Plymouth to see the Bear Hunt and the children have already come up with lots of ideas around this topic including making our own theatre and putting on a show, making musical instruments, planning our own Bear Hunt and finding out about different kind of bears so we will be starting the Summer term with lots of work around this topic.

Other topics that our children have asked to do this term are;

Water, Dinosaurs, Princesses, Pirates and mud! We are also going on trip to Newquay Airport as lots of our children are really interested in **planes and flying!**
